**3 DAY SAFARI**

LAKE MANYARA NATIONAL PARK  
NGORONGORO CRATER CONSERVATION AREA  
TARANGIRE NATIONAL PARK

## 3 DAY SAFARI

**F**or the three day safari we take you to Tarangire National Park which is known for its large herds of elephants. If you are lucky, you may even spot the elusive tree-climbing lions. Day two will be spent at Lake Manyara National Park which is a wonderland of birds. You'll conclude your safari in the stunning Ngorongoro Crater Conservation Area. It is a 2,000 foot deep, 11 mile across, extinct volcanic crater that is home to the same animals as the Serengeti. You'll spend the day being entertained by the mating ostrich, stalking hippos, and lazy lions.

### DAY 1

Our safari driver will pick you up from your lodge after breakfast. It is a few-hour drive to Tarangire National Park, the sixth-largest national park in Tanzania. It is known for its large herd of elephants and massive baobab trees. You'll be entertained by herds of wildebeest, zebras, and impalas as you weave your way back and forth across the Tarangire River. Your game drive will last until 5 PM when the park closes. Afterward, you'll be driven to your tented camp in time for dinner.

### DAY 2

Your drive is a few hours to Lake Manyara National Park. Although small in size, this park is one of the most diverse animals preserve in the country. The lake covers more than two-thirds of the park. It falls in the shadow of the end of the East Arm of the Great Rift Valley. The Rift Valley has been a rich source of hominid fossils. The famed "Lucy" skeleton was discovered there. Your game drive begins in the dense forests with monkeys, elephants, and baboons surrounding your vehicle. You'll continue across the grasslands as giraffes, wildebeest, and zebra graze alongside each other.

### DAY 3

On the final day, you'll descend the Ngorongoro Crater Conservation Area en route to your hotel or Kilimanjaro International Airport (JRO).

*Note: Clients can make flights departing after 8:00 pm from JRO*
